INTERNSHIP Company Name: **Knowx Innovations**

- Data Science internship at Knowx Innovation with hands-on experience in Python, SQL, and ML algorithms.
- Contributed to “Medicinal Plant Detection using Deep Learning” by handling data preprocessing and model training.
- Gained experience in deep learning frameworks and project execution.

PROJECTS

- Medicinal Plant Detection using Deep Learning: Built a computer vision model using image processing (colour, texture, leaf veins) to achieve high plant detection accuracy.
- Laundry Management System: Developed a web app with sign-up, login, and order features, improving service efficiency.

COURSES

Cloud Foundation Certification **August 2024**

Introduction to Graphic Design with Photoshop Certification **August 2024**

EDUCATION

Master Of Computer Application [S-vyasa] **Pursuing**

Bachelor Of Computer Application [BMS College For Women] **2022- 2024 89%**

TECHNICAL SKILLS:

Python , C , Java , Data Structures ,SQL, Power BI

ACHIEVEMENTS

- Awarded a Certificate of Merit for securing the highest marks in Data Structures.
- Received a Certificate of Merit for achieving a perfect score (centum) in Python.
